

WASH YOUR HANDS.

*Handwashing is the **SINGLE** most important step in stopping the spread of germs.*

Wash your hands with Symmetry™ soap and eliminate germs.

Help stop the spread of *MRSA*

MRSA, Methicillin-Resistant Staphylococcus Aureus, is a mutation of a staph infection, a bacterial infection that can be a serious threat if it is not treated promptly and thoroughly. *MRSA* is transmitted from skin to skin contact through cuts and scrapes, and also through contact in restrooms.
